THE DAILY NEWS.
WEDNESDAY, JUNE 2, 1880.

THE boss' candidate—Grant.

THE drift of the Chicago dispatches is that Grant is losing his grip.

UNDoubtedly there will be two reports from the committee on credentials. The vote upon them will be the test of strength.

MAJOR GORDON made several hundred anti-Grant votes by his speech at the Opera house. If Grant is nominated, the anti-Grants should get the major to speak several times during the campaign.

THE builder of the new wigwam wants some one to suggest a name for it. We suggest, in case Grant is nominated, that it be called "Marah." If Grant and Tilden are both nominated "Crow-nest" would be a good name.

BEN HARRISON is in a beautiful position to get struck by lightning. If he stands firm in his tracks there is no telling what may happen. If he were nominated it might elevate Hendricks's chances at Cincinnati several paces.

THE Sentinel seven more worried over the anti-Grant meeting than the Journal. The Sentinel is afraid of the development of anti-Grant feeling among republicans strong enough to kill off the third term, and thereby make democratic success next fall speculative instead of certain. It therefore lies lustily about the anti-Grant meeting of Monday night.

"WHEN the anti-Grant men," says the Journal of yesterday, "called out Major J. W. Gordon last night, they caught a tartar." This is sad. But it isn't a circumstance to the number of tartars the Grant men caught. Again, if the anti-Grant men called out their tartar simply to "sit down on him," as they did, it was more than sad; it was positively cruel.

A REPUBLICAN who declared he would rather go to defeat under Grant than to victory under Sherman, and would rather see Tilden president than Sherman, declared the anti-Grant meeting a "disgraceful thing for some republican business men to call upon those who are opposed to nominating a certain candidate to meet and say so; ward bumpers and bladders and strikers and those who make their living off of politics are the only ones who have a right to hold meetings. The business men must keep their mouths shut, pay taxes and vote the tickets the bumpers prepare for them. It is a burning shame that they should do otherwise.

We are behind the Pagans 2,000 years in the matter of bathing. It might be called a lost art with us. To establish public bathing houses is clearly within the province of municipal government. Several cities of the country have already done so. But cleanliness in this particular moves but slowly on. Meanwhile we police our city, we clean our streets, (some times,) we enforce sanitary regulations as to household arrangements, but we let those who can not afford the luxury of a bath go unwashed practically forbidding them to bathe at any spot in any stream within walking distance. It is directly for the best interests of every city to have free baths. Indianapolis has the facilities. The baths could be established and maintained at small cost. The approaching summer promises to be a hot one. Give the poor man and the hard working man a chance. Give him a bath. The health of the city would be improved, its death rate lessened and life made pleasant for those whose lot has fallen in dingy rooms and circumscribed premises. Let us have free baths.

THE compromise in the national committee is a substantial victory for the anti-Grant men. Mr. Hoar will be named temporary chairman without opposition. The committee on permanent organization and on credentials will be made up by each state naming one mem-

ber. The anti-Grants control a large majority of states and will have a majority in both committees. There will doubtless be majority and minority reports from both. These will be voted upon by the delegates individually. The convention, as made up to vote upon these questions in preliminary organization, has given the preference to state over district certificates, which results in giving Grant twenty votes from Illinois more than he would get on district certificates, and three from Alabama. Blaine will get four from Kansas, two from Utah and two from West Virginia. Louisiana will not be admitted at all, but referred to the credentials committee. The majority report from this committee will doubtless give these 20 Illinois votes for Blaine on the "district" principle, and apply the same rule all the way through to the states which are admitted into the temporary organization on state certificates. This will further cut down the Grant forces. After the convention is thus permanently organized by individual delegate votes, the question of enforcing or abrogating the unit rule will come up and the vote on this will be taken, every delegate voting independently. At this distance and this time it looks as if the Anti-Grant men were in the lead and going under a strong pull. But nothing can be positively asserted till the votes are taken.

THE New York Nation in a few words well answers one of the third-termers' arguments, and in so doing so neatly exposes the difference between President Hayes's civil service pretensions, and the practices he permits that we consider its re-print here worthy:

"The third-term syndicate, too, have ceased to proclaim that it is not really a third term which they propose inasmuch as one term of another president has followed General Grant's first two terms. To make a real distinction between these two terms and the one now asked for the opposition ought to have come into power. The office-holders whom President Hayes found in office formed a vast electing machine constructed in the course of eight years by the master hands of Senators Morton, Conkling, Chandler and others, and Mr. Hayes has not disturbed them and has designated or next to nothing to change their ideas, as to the conditions of the tenure of office. His efforts at reform in the New York custom house, praise worthy as they may have been, have had little or no influence in shaking the confidence of the official mind in the permanence of the 'spoils' system. The election of Mr. Cornell to the governorship of New York, with the hearty and open support of the administration, after setting the president's attempt at civil service reform at defiance, has far more than confirmed the civil service that the introduction of competitive examinations into one custom house does not mean any radical change in the conditions under which places in the public service generally are to be won and kept.

It is well known fact that the commission of internal revenue, General Raum was chairman of the convention at Springfield where the voice of the people of Illinois was stifled, and that the Grant victory in that state was won chiefly by the intrigue and sharp practice of government officials in the various branches of the civil service.

CURRENT COMMENT.

The black walnut forests of Iowa are now suffering a raid of English dealers, who are rapidly depleting them, as those of this state and Iowa have been depleted. Black walnut is in great demand in England, and unless the wholesale cutting of it in this country is ended there will soon be little of it left here.

The Lafayette Journal manifests an accession of feebleness. No nepotism, no grudging or private revenge influence The News's course.

Some Texas wool growers have recently purchased in one county in that state a tract of 300,000 acres of land, bordering about twenty miles along the Rio Grande, upon which they intend to graze about 200,000 sheep. From a flock of 35,000 head, they have this year, on a six months' clip, realized \$18,000.

The New York Sun says a word in season. All sensible persons know that hot weather is no time to be guzzling fiery liquors, no matter how craftily and temptingly they may be disguised as cooling beverages. But intemperance is also to be avoided in the use of the milder potables. The lesser lager, the less claret, the better; the less lemonade, soda water, or ice water, the better. Death lurks in the good temper's cooler as well as in the drunkard's demijohn. This "rainy spell" may cause indifference to this good advice but it would be wise to cut this out for reference or during the heated term which doubtless we will soon have with us.

The country is safe, and the American people have so often decided in favor of Grant when November comes even the most disappointed partisans may comfort themselves with the reflection that the popular verdict probably for the best, and that no party can greatly harm the country in the two years which will intervene before the next congress is chosen.—(New York Herald.)

To nominate Mr. Bayard is to infuse life, courage and confidence into our own ranks and at the same time to insure a large accession from the ranks of the opposition. What other nomination will do as much?—(Vicksburg Herald.)

A bottomless political gulf yawns for any man who, having received support as an anti-third term candidate, coquets with the third-termers at a critical hour of the contest.—(New York Tribune.)

Whether Grant shall be nominated or not is a question which concerns almost exclusively the republican party. That Grant is to be defeated either in the convention or at the polls we regard as morally certain. If the republicans cut the words of opposition to a third term which they uttered four years ago, and nominate a candidate for a third term, then they will add disgrace to a defeat which, in any event, with the democracy united, is inevitable.—(New York Sun.)

Wagon's Affair II.
(Crawfordville Journal.)
At no time have we ever assailed the character or public record of Gen. Grant. We yield to none in our admiration of his patriotic services and believe that he has deserved all the honors and glory he has left in his keeping. A stranger, who happened to be looking at the house, shot them both dead. Mrs. Prude was 60 years old and the owner of considerable real property, independent of an inheritance of \$17,000.

45 Years Before the Public THE GENUINE Dr. C. McLANE'S LIVER PILLS

are not recommended as a remedy "for all the ills that flesh is heir to," but in affections of the Liver, and in all Bilious Complaints, Dyspepsia, and Sick Headache, or diseases of that character, they stand without a rival.

ACUE AND FEVER. No better cathartic can be used preparatory to, or after taking quinine.

As a simple purgative they are unequalled. Beware of imitations. The genuine are never sugar-coated.

Each box has a red wax seal on the lid with the impression, McLANE'S LIVER PILLS. Each wrapper bears the signatures of C. McLANE and FLEMING BROS.

Insist upon having the genuine Dr. C. McLANE'S LIVER PILLS, prepared by FLEMING BROS., Pittsburgh, Pa., the market being full of imitations of the name McLANE spelled differently by some pronunciation.

Mr. McKenna, I would like to trade you this horse for a pair of June pants.

What! Trade that horse for a pair of pants? I don't want him.

Not over twenty dollars.

Well, you can have him. I never let a hundred dollars stand in my way.

I don't want the horse at any price.

You don't care how you have lost. That horse cost a mile.

Well, he is worth, I reckon, a hundred and twenty-five dollars.

I don't want him at that price.

NOTICE

To Tennessee and Meridian Street Property Owners.

In view of the permanent character of the improvements about to be made on Tennessee and Meridian streets, the Water Works Company respectfully recommends that all who may intend having the water mains tapped within the next few years, had better have it done now and the service pipe laid to the sidewalk, even if the use of the water is postponed indefinitely. There are several good reasons for such action.

Labor and material are now lower than they are likely to be within any length of time, and the new and costly streets may remain almost undisturbed by the ruinous ditches otherwise crossing them. The plumber's charge for furnishing and laying the service pipe will be unimportant, and the Water Works company will tap the mains free of charge.
